Introduction to the Unit

Welcome to Unit I of AEC 2 — **BASIC ARABIC LANGUAGE SKILLS**. This unit opens the door to real-world Arabic communication. Arabic is one of the world's oldest and most widely spoken languages, with over 400 million native speakers across 22 countries. It is the language of the Holy Quran, a rich literary tradition, and a global medium of scholarship, commerce, and diplomacy.

In this unit, you will begin your communicative Arabic journey by learning how to introduce yourself, introduce others, exchange greetings in various social contexts, and understand the basic building blocks of Arabic sentences. Each section is supported by model dialogues, grammar notes, Quranic wisdom, a short story, and practice exercises.
